

APURE

All for your service needs!

Company profile

Create more cost-effective products and provide more thoughtful services

Create more cost-effective products and provide more thoughtful services
Apure is dominated by the application of water treatment industry and committed to saving cost and human and material input! APURE instruments cover industrial Ph acidity meter, industrial ORP controller, online conductivity meter, dissolved oxygen meter residual chlorine tester, tracing instrument, flow meter, level meter, pressure transmitter, thermometer and laboratory water quality analysis instruments. All products are precipitated in practical application and have received good feedback from customers on the site use. Now, in the rapid change of industrial process control, can we have a competitive advantage? The key is to make process control faster, more flexible, more efficient and more economical. From production to management, from local to global, all processes cannot be separated from the synchronism of equipment, achieving the maximum productivity.

As your professional partner, our company will wholeheartedly meet your needs. After the experience gained in process control, we continuously improve the independent product to make the product itself reliability and stability. APURE brand will be a rising star in instrumentation. Whether in the on-line analysis instrument, liquid level measurement, flow meter, pressure transmitter and other industrial control of many other supporting instruments, APURE's branded products are increasing their market share.

Apure industrial online PH/ORP controller

Model: RP-1500

Feature:

- IP65 protection level; Installation: panel mounting
- English and Chinese operation interface, simple operation
- Provide 220V ac and 24V dc double power input
- Two 4-20MA outputs correspond to the PH/ORP setting and temperature
- Two sets of relays, high and low switching at will
- RS-485 (Modbus RTU agreement) Functions (optional)

Measuring range	Resolution ratio	Accuracy	Instrument size
PH: 0-14ph	PH: 0.01PH	PH: 0.01PH±1Digit	96mm*96mm*132mm(H*W*D)
ORP: -1999 - +1999 mV	ORP:1mV	ORP:0.1%±1Digit	Cut-size
Temp: 0-99 °C	Temp: 0.1 °C	Temp:0.1°C ±1Digit	92mm*92mm(H*W)

Apure industrial online PH/ORP controller

Model: RP-3000
(Dual channel PH/ORP controller)

Feature:

- English and Chinese operation interface, simple operation
- Connect two probes at the same time and measure two PH or ORP and ORP
- Two 4-20ma outputs correspond to two channel numbers
- Two sets of relays correspond to two channel values
- RS-485 (Modbus RTU agreement) Functions (optional)
- Installation: panel or wall mounting
- 100-240V wide power; IP65 protection level

Measuring range	Resolution ratio	Accuracy	Instrument size
PH: 0-14ph	PH: 0.01PH	PH: 0.01PH±1Digit	144mm*144mm*120mm(H*W*D)
ORP: -1999 - +1999 mV	ORP:1mV	ORP:0.1%+1Digit	Cut-size
Temp: 0-99 °C	Temp: 0.1 °C	Temp:0.1°C +1Digit	138mm*138mm(H*W)

Feature:

Model: RP-600

- English and Chinese operation interface, simple operation
- A set of 4-20ma signals
- A set of high/low relays
- IP54 protection level
- Provide 220V ac and 24V dc power supply

Measuring range	Resolution ratio	Accuracy	Measurement drift
PH: 0-14ph	PH: 0.01PH	PH: 0.01PH±1Digit	pH: Maximum measuring range of 0.75%
ORP: -1900 - +1900 mV	ORP:1mV	ORP:0.1%±1Digit	mV: Maximum measuring range of 0.75%
Temp: 0-99 °C	Temp: 0.1 °C	Temp:0.1°C ±1Digit	Pt1000tempcompensatio

Model: RP-2000

Feature:

- English and Chinese operation interface, simple operation
- Two 4-20MA outputs independently correspond to PH/ORP or temperature
- Two sets of relays, high and low point arbitrary switching, corresponding to PH or temperature
- RS-485 (Modbus RTU agreement) Functions (optional)
- Installation: panel or wall mounting
- 100-240V wide power; IP65 protection level

Measuring range	Resolution ratio	Accuracy	Instrument size
PH: 0-14ph	PH: 0.01PH	PH: 0.01PH±1Digit	144mm*144mm*120mm(H*W*D)
ORP: -1999 - +1999 mV	ORP:1mV	ORP:0.1%+1Digit	Cut-size
Temp: 0-99 °C	Temp: 0.1 °C	Temp:0.1°C +1Digit	138mm*138mm(H*W)

Apure industrial online PH sensor

GRT1010 Plastic shell PH electrode
(Colloidal electrolyte)

Application: PH measurement of sewage treatment
Specification:
Measuring range : 2-12pH
Temp range : 0-70°C
Pressure: normal pressure
Installation dimension: up and down 3/4NPT screw thread
Material: PC
Sheath : 0-3 m submersible sheath(PVC)

GRT1010J PH electrode resistant to organic solvent(Colloidal electrolyte)

Application: PH measurement of sewage treatment with organic solvent
Specification:
Measuring range : 2-12pH
Temp range : 0-70°C
Pressure: normal pressure
Installation dimension: up and down 3/4NPT screw thread
Material: PTFE
Sheath : 0-3 m submersible sheath(PPR)

Apure industrial online PH sensor

GRT1110 Glass PH electrode (Colloidal electrolyte)

Application: PH measurement of sewage treatment
Specification:
Measuring range : 2-12pH
Temp range : 0-70°C
Pressure: normal pressure
Installation dimension: up and down3/4NPT screw thread
Material: PC
Sheath : 0-3 m submersible sheath(PVC)

GRT1130 High temperature PH electrode
(Jelly electrolyte)

Application: PH measurement of high temperature sewage treatment
Specification:
Measuring range: 0-14pH
Temp range: 0-110°C
Pressure: normal pressure
Installation dimension: PG13.5 screw thread
Material: glass

GRT1030 Special PH electrode for lime solution(Colloidal electrolyte)

Application: PH measurement of sewage treatment with lime slurry
Specification:
Measuring range : 2-12pH
Temp range : 0-70°C
Pressure: normal pressure
Installation dimension: up and down 3/4NPT screw thread
Material: PC
Sheath : 0-3 m submersible sheath: PVC)

GRT1010T PH electrode resistant to hydrofluoric acid(Colloidal electrolyte)

Application: PH measurement of sewage treatment with hydrofluoric acid
Specification:
Measuring range : 2-12pH
Temp range : 0-70°C
Pressure: normal pressure
Installation dimension: up and down 3/4NPT screw thread
Material: PC
Sheath : 0-3 m submersible sheath: PVC)

GRT1320 High temperature PH electrode
(Solid electrolyte)

Application: PH measurement of high temperature sewage treatment
Specification:
Measuring range : 0-14pH
Temp range : 0-135°C
Pressure: normal pressure
Installation dimension : PG13.5 screw thread
Material: glass
Sheath : 0-3 m submersible sheath(PVC)

GRT1320A/B Strong acid (base)
PH electrode(Solid electrolyte)

Application: PH measurement of high temperature sewage treatment
Specification:
Measuring range : 0-14pH
Temp range : 0-135°C
Pressure: normal pressure
Installation dimension : PG13.5 screw thread
Material: glass
Sheath : 0-3 m submersible sheath(PVC)

Apure industrial online PH sensor

GRT1010P Plastic shell ORP electrode
(Platinum ring)

Application: ORP measurement of general sewage treatment
Specification:
Measuring range: -1999mv-1999mv
Temp range: 0-70°C
Pressure: normal pressure
Installation dimension: up and down 3/4NPT screw thread
Material: PC
Sheath : 0-3 m submersible sheath

GRT1010JP ORP electrode resistant to organic solvent (Platinum ring)

Application: ORP measurement of sewage treatment with organic solvent
Specification:
Measuring range: -1999mv-1999mv
Temp range: 0-70°C
Pressure: normal pressure
Installation dimension: up and down 3/4NPT screw thread
Material: PTFE
Sheath : 0-3 m submersible sheath
(PPR)

GRT1110P Glass ORP electrode
(Platinum ring)

Application: ORP measurement of ambient temperature sewage
Specification:
Measuring range: -1999mv-1999mv
Temp range: 0-70°C
Pressure: normal pressure
Installation dimension: PG13.5 screw thread
Material: glass
Sheath : 0-3 m submersible sheath (PVC)

GRT1130P High temperature glass ORP electrode (Platinum ring)

Application: ORP measurement of high temperature sewage
Specification:
Measuring range: -1999mv-1999mv
Temp range: 0-110°C
Pressure: normal pressure
Installation dimension: PG13.5 screw thread
Material: glass
Sheath : 0-3 m submersible sheath
(PVC)

Apure PH/ORP sensor mounting sheath

PP1020-100 Submersible sheath

Application: Used for tank installation and measurement of plastic shell PH electrode
Specification:
Material: PVC (PPR is optional)
Temp range: 0-70°C
Pressure: normal pressure
Installation dimension: 3/4NPT screw thread
Optional size: 1 m, 2 m, 3 m

PP1120-100 Submersible sheath

Application: Used for tank installation and measurement of glass PH electrode

Specification:
Material: PVC
Temp range: 0-70°C
Pressure: normal pressure
Installation dimension: 3/4NPT screw thread
Optional size: 1 m, 2 m, 3 m

PF-1120G SS-1130G

Application: Pipe glass PH electrode installation
Specification:
Material: PVDF;
Stainless steel
Temp range: 0-60°C
Pressure: normal pressure
Installation dimension: 3/4NPT screw thread

Circulation tank type installation sheath

PTB1010;PTB1130

Application: Circulating (bypass) PH electrode installation
Specification:
Material: acrylic
Temp range: 0-60°C
Pressure: normal pressure
Installation dimension: PTB1010 3/4NPT screw thread PTB1130 PG13.5 screw thread

PH/ORP Buffer solution

PH1.68	ORP 86mv
PH4.00/PH4.01	ORP 220mv
PH6.86	ORP 256mv
PH7.00	
PH9.18	
PH10.00	

Signal amplifier and junction box

Signal amplifier
F4-FD

Junction box
F4-05

Order no:60901061 Order no:60904051

Apure Industrial on-line conductivity controller

English operation interface, simple operation

- 220V ac and 24V dc double power supply
- Two 4-20MA outputs correspond to conductivity setting and temperature
- Two sets of relays, high and low switching at will
- Password management access settings, enhance security protection IP65 protection level

Electrode: KS-10

Model: ES-2200

Meter model	Temp compensation	Accuracy	Size	Cut-out
ES-2200	AUTO	±1%(FS) +Digit	96*96*110mm (H*W*D)	92*92mm (H*W)
Electrode model	Temp resistance	Withstand voltage	Thread size	Measuring range
KS-0.01	5-50°C	0 ~ 0.5Mpa	1/2 " pipe	0.055us/cm-200us/cm
KS-0.1	5-50°C	0 ~ 0.5Mpa	1/2 " pipe	0.1us/cm-2000us/cm
KS-1	5-50°C	0 ~ 0.5Mpa	1/2 " pipe	1us/cm-20ms/cm
KS-10	5-120°C	0 ~ 0.5Mpa	1/2 " pipe	10us/cm-200ms/cm

Apure Industrial on-line conductivity controller

- High conductivity limit, low temperature limit dual relay alarm output
- Isolated type 4 ~ 20mA current signal output, upper limit represented by the 20mA output can be set
- Temperature automatic compensation, compensation coefficient can be set, 90°C is base value of conductivity.
- The conductivity and temperature are displayed simultaneously, and the key can be selected as the resistivity display

Model: ES-3100

Electrode: DJS-0.1

Meter model	Temp compensation	Accuracy	Size	Cut-out
ES-3100	AUTO	±2%(FS)	96*96*130mm (H*W*D)	92*92mm (H*W)
Electrode model	Temp resistance	Withstand voltage	Thread size	Measuring range
DJS-0.1	0-100°C	0 ~ 0.5Mpa	1 " pipe	0 ~ 19.99uS/cm-1; 0 ~ 3.00MΩ/cm

Apure Industrial on-line conductivity controller

Model: ES-201

Electrode: DJS-1

Feature:

- Automatic switching range
- A set of 4-20 ma
- No relay
- Panel mounting
- AC220V±10% 50Hz

Measuring range	Stability	Accuracy	Meter size
0-1999us/cm	±1% (FS) /24h	±2.0%(FS) +Digit	48*96*100mm (H*W*D)
Electrode Temp resistance	Electrode Withstand voltage	Electrode Thread size	Cut-out
5-50°C	0 ~ 0.5Mpa	1/2 " pipe thread	45*92mm (H*W)

Model: ES-401

Electrode: DJS-1

Feature:

- Conductivity and temperature are displayed simultaneously
- No 4-20 ma
- A set of high point relays
- Panel mounting
- AC220V±10% 50Hz

Measuring range	Stability	Accuracy	Meter size
0-20ms/cm	±1% (FS) /24h	±2.0%(FS) +Digit	48*96*100mm (H*W*D)
Electrode Temp resistance	Electrode Withstand voltage	Electrode Thread size	Cut-out
5-50°C	0 ~ 0.5Mpa	1/2 " pipe thread	45*92mm (H*W)

Model: ES-109

Electrode: DJS-1

Sanitary electrode: WJS-0.1

Feature:

- 4-20ma
- No relay
- Wall mounted
- 24 VDC power supply

Meter model	Temp compensation	Stability	Accuracy	Measuring range
ES-109	AUTO	±1% (FS) /24h	±3.0%(FS) +Digit	Customized according to electrode
Electrode model	Temp resistance	Withstand voltage	Thread size	Measuring range
DJS-1	5-50°C	0 ~ 0.5Mpa	1/2 " pipe thread	0-20ms/cm
WJS-0.1	5-120°C	0 ~ 0.5Mpa	Chuck type	0-20us/cm or 0-100us/cm

Apure Industrial on-line chlorine controller

TC-2200

TS-280

Feature:

- A set of 4-20 ma
- A set of relays correspond to residual chlorine values
- Screen has five ways to display
- IP65 protection level
- 220VAC power supply

Measuring range	Resolution ratio	Accuracy	Meter size
chlorine : 0-20.00mg/L	chlorine : 0.01mg/L	Superior to ±1%	96mm*96mm*132mm(H*W*D)
PH : 0-14PH	PH: 0.01 PH	Superior to ±0.02 Ph	Cut-out
Temp: 0-99 °C	Temp: 0.01 °C	Superior to ±0.5 °C	92mm*92mm(H*W)

Apure industrial online corrosion rate controller

FCY-100

Corrosion rate probe

Feature:

- 144*144 type corrosion rate transmitter
- Provides calibration function, convenient site application
- 1 set of isolated signals 4-20ma
- Object oriented menu design, easy to operate
- IP65 protection level ; 24VAC power supply

Measuring range	Resolution ratio	Accuracy	Meter size
0. 001 ~ 1. 000 mm/a	PH: 0.01PH	±0. 001 mm/a	144mm*144mm*90mm(H*W*D)
Response(refresh)time	Power consumption	Installation	Cut-out
1 min	≤10W	Panel mounting	138mm*138mm(H*W)

Apure industrial online dissolved oxygen controller

Model: RD-20N Electrode: TS-200

Meter model	Temp compensation	Accuracy	Meter size	Cut-out
RD-20N	AUTO	±1.5%(FS)	96*96*115mm (H*W*D)	92*92mm (H*W)
Electrode model	Temp resistance	Response time	Thread size	Measuring range
TS-200	0-60°C	30 sec	3/4 " NPT thread	0 ~ 19.99mg/l

Feature:

- Mainly used for sewage, river water, breeding, etc
- A set of 4-20ma signal output
- ON/OFF relay output contact
- 220VAC voltage
- Weight 1KG

Apure industrial online turbidity controller

TS-620 TD-400 TD-5000

Electrode measuring range	Resolution ratio	Accuracy	Meter size
TD-400: 1-100.00ntu	0.01NTU	±1%FS	242mm*184mm*135mm(H*W*D)
TD-5000: 20-5000ntu	0.1NTU	±1%FS	Installation
Required medium temp: 0-50 °C	RH: ≤ 85%		Wall mounted

Apure high temperature fermentation dissolved oxygen controller

Meter: RD-108

For high temperature fermentation situation
Electrode: TS-290

Feature:

- Mainly used to measure dissolved oxygen in high temperature fermentation
- Isolated two wire system 0/4~20mA
- 1~5V output (with protection)
- High stability, precision and anti-interference
- Two-wire 24VDC power supply
- High precision low drift
- IP65 protection level

Apure industrial online suspended solids concentration controller

S-730 Probe: TD-30

Meter: RD-108B (With display)

Measuring range	Resolution ratio	Accuracy	Meter size
TD-30: 0-30g/l	1mg/l	±%1FS	242mm*184mm*135mm(H*W*D)
Required medium temp: 0-50 °C	RH: ≤ 85%	Wall mounted	Installation
Required medium temp: 0-50 °C	RH: ≤ 85%		Wall-mounted

Apure industrial online tracer controller

SR-100

Tracer probe

Feature:

- 3 sets of 4-20ma; 3 sets of relays
- Corresponding: 350A、TP、OFF null point
- Slope scaling, convenient for site application
- 3 kinds of display mode, convenient for users to view
- IP65 protection level
- Installation: panel and wall mounted
- 220VAC power supply

Measuring range	Resolution ratio	Accuracy	Meter size
350A value : 0 ~ 99.9 ppm	0.1mg/L	±0.1 ppm	144mm*144mm*120mm(H*W*D)
TP value : 0 ~ 9.99 ppm	0.01mg/L	±0.03 ppm	Cut-size
Temp: 0 ~ 50.0 °C	Temp: 0.01 °C	±1 °C	133mm*133mm(H*W)

Apure industrial on-line one-piece ultrasonic liquidometer

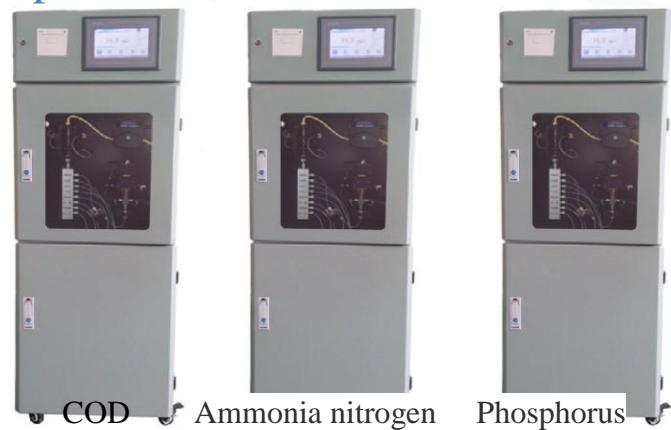

Model: AK-2000E

- A set of 4-20mA analog output, two sets of relay
- RS-485 communication (Modbus RTU agreement) (Optional)
- IP65 protection level
- 220V AC and 24V DC dual power (Optional)
- Installation: one-piece on-site installation and display
- Sensor material: ABS plastic (PE/PTFE anti-corrosion material is optional)

Measuring range	Dead zone	Range accuracy	Pressure
0-20M (Customized to the actual situation)	0.5m	±3mm (standard conditions)	3 atmospheres below
Meter type	Range resolution ratio	Environment temperature	Meter display
one-piece	1mm	-20°C ~+60°C	Built-in LCD display level or space distance

Apure Industrial online COD/ ammonia nitrogen / phosphorus

Feature::

- Automatically clean the sampling tube to prevent algae or biofilm formation
- 2 sets of 4-20 ma
- RS232 or RS485 communication interface
- 6 sets of relay control
- Power supply AC220±10%V

Meter model	Measuring range	Accuracy	Repeatability error	Measurement period	Sampling period
COD: QZ3000	10~2000mg/L	≤±10%	≤±10%	minimum 40min	20~9999min ADJ
Ammonia: QZ300	0.1~300mg/L	≤±10%	≤±10%	minimum 20min	20~9999min ADJ
Phosphorus: GTP-5	0~50mg/L	≤±10%	≤±10%	minimum 40min	20~9999min ADJ
Instrument calibration		Maintenance period		Dimension (COD, Ammonia, Phosphorus)	
Timing sensitivity and zero correction		1~99 days, usually 1 time per month		1500*550*450mm (H*W*D)	

Apure split type ultrasonic liquidometer

Model: AK-7000E

- A set of 4-20mA analog output
- Four sets of relay switch output
- RS-485 communication (Modbus RTU agreement) (Optional)
- IP65 protection level
- 220V AC and 24V DC dual power (Optional)
- Installation: split type, meter wall-mounted
- Sensor material: ABS plastic (PE/PTFE anti- corrosion material is optional)
- Sensor comes with 10m lines(which can be extended to

Measuring range	Dead zone	Range accuracy	Pressure
0-20M (Customized to the actual situation)	0.25-0.5m	±3mm/0.3% (standard conditions)	3 atmospheres below
Meter type	Range resolution ratio	Environment temperature	Meter display
split type	1mm	-20°C ~+60°C	Built-in LCD display level or space distance

APURE intelligent electromagnetic flowmeter

■ APURE intelligent electromagnetic flowmeter

■ Technical parameter

- DN (mm)
 - Pipeline PTFE lining: 10,15,20,25,32,40,50,65,80,100,125 150,200,250,300,350,400,450,500,600
 - Pipeline rubber lining: 40,50,65,80,100,125,150,200,300,350,400, 500,600,800,1000,1200
- Flow direction
 - Positive, negative, net flow range ratio: 150:1
 - Repeatability error: measured value $\pm 0.1\%$
- Accuracy class: pipeline: 0.3 class, 0.5 class, 1.0
- Temp of the measured medium:
 - Ordinary rubber lining: -20 ~ +60°C
 - High temperature rubber lining: -20 ~ +90°C
 - PTFE lining: -30 ~ +100°C
 - High temperature PTFE lining: -30 ~ +180°C
- Rated working pressure:
 - Pipeline: DN10-DN65: $\leq 2.5\text{Mpa}$
 - DN80-DN150: $\leq 1.6\text{Mpa}$
 - DN200-DN1200: $\leq 1.0\text{Mpa}$
- Flow measurement range:
 - Flow measurement range convection velocity range is 0.3-15m/s
- Conductivity range:
 - Conductivity of measured fluid $\geq 5\mu\text{s/cm}$
 - Conductivity is in the range of 200-800

- us/cm in most water - based media electromagnetic flowmeter can be selected.
- Output current and load resistance
 - 4-20mA fully isolated load resistance $< 750\text{ Ohm}$ pulse
 - When frequency 0-1KHZ optoelectronic isolation OCT external power $\leq 35\text{V}$ is connecting, maximum current of collector is 25mA.
- Electrode material:
 - Molybdenum-containing stainless steel, Ti , Ta, H , Pt or other special electrode materials .
- Protection level : submerged type: IP68,other IP65
- Power supply: 85 ~ 265V , 45 ~ 63HZ
- Straight length: Pipeline: upstream $\geq 5\text{DN}$,downstream $\geq 2\text{DN}$
- Connection type
 - Flanged joint is used between flow meter and distribution pipe, the size should meet the rule of B9119-88
- Explosion-proof sign: md11BT4
- Environment temperature : -25°C ~+60°C
- Relative temperature: 5%~95%
- Total power consume: less than 20W

AFT-350L	Split type				41135002
AYT-400S	Integrated type	45.2	6780	400	41140001
AFT-400L	Split type				41140002

▲ Note: Above standard with 20m cable, RS485 communication is optional(Provide communication protocol) LCD PTFE lining (DN6 ~ DN65) , rubber lining (greater than DN65) , 316L electrode, integrated type, no grounded ring (pipe is metal) , can be with RS232. flanged mounting, nominal Pressure IS1.6MPA. Please confirm with related technical personnel before ordering.

Apure split type open channel flowmeter

Apure split type open channel flowmeter

Model: MQ6000

- A set of 4-20ma analog output
- RS-485 communication (Modbus RTU agreement) (Optional)
- IP65 protection level
- 220V AC and 24V DC dual power (Optional)
- Installation: split type, meter wall-mounted
- Sensor material: ABS plastic (PE/PTFE anti-corrosion material is optional)
- Sensor comes with 10m lines(which can be extended to 50m)

Measuring range	Dead zone	Range accuracy	Pressure
Parshall trough universal type	0.25-0.5m	±3mm/0.3% (standard conditions)	3 atmospheres below
Meter type	Range resolution ratio	Environment temperature	Meter display
split type	1mm	-20°C ~+60°C	Built-in LCD display level or space distance

External clamp ultrasonic flowmeter

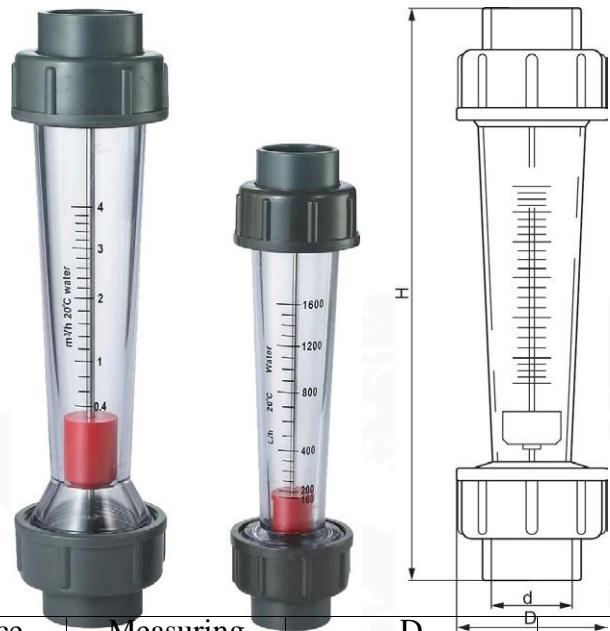

Main technical parameters

Measurement principle: ultrasonic time difference principle
 Measurement range :0~±10m/s
 Accuracy: flow rate is better than ±1%
 Display :2 x 10 Chinese backlit characters or 2 x 20 character LCD display, support three languages: Chinese, English and Italian
 Flow direction: Positive and negative two-way metering, and measure positive, negative, net cumulative flow / heat
 Data interface; RS485 serial turbulence, can be upgraded by PC computer, support MODBUS and other protocols
 Data recording: positive/negative/net accumulations at 512 days, 128 months and 10 days before automatic memory More than 30 times, power off time and flow rate before automatic memory and can be automatically or manually added
 Signal output: 1 channel 4-20mA current output 1 relay output
 1 channel OCT pulse output (programmable between 6~100ms pulse width, default 200ms)
 Signal input: 3 channels of 4-20mA analog input, accuracy 01%, can collect pressure, liquid level, warm sleep and other signals
 2-way three-wire PT100 platinum resistor for thermal measurement
 Power supply :Ac85~264V or Dc8~36V
 Measuring medium: water, sea water, sewage, alcohol, various oils, etc., single, uniform, stable liquid that can guide ultrasonic waves
 Media turbidity: ≤ 2000pm and small bubble content
 Applicable pipe: Carbon steel, stainless steel, copper, PVC, aluminum, fiberglass and other uniform and dense pipes, allowing lining
 Straight pipe section: The sensor installation point is best to meet: upstream 10, downstream 5, from the pump outlet 300 (D is the diameter)

Sensor	Standard small sensor L1	dn15-dn100mm	0~90c
	Standard medium sensor L2	dn50--dn700mm	0~90c
	Standard large sensor L3	dn300-dn600mm	0~90c
	High temp small sensor GL1	dn15-dn100mm	0~160c
	High temp medium sensor GL2	dn50-dn700mm	0~160°C
	High temp large sensor GL3	dn300--dn600mm	0~160°C
	Standard insertion sensor c1	Above dn80mm	0~160c
	Extended insertion sensor c2	Above dn80mm	0~160c
	Parallel insertion sensor c3	Special customization	
	Pipe section sensor	dn15mm~dn1000mm	0~90c/0

UHZ Magnetic flap level gauge

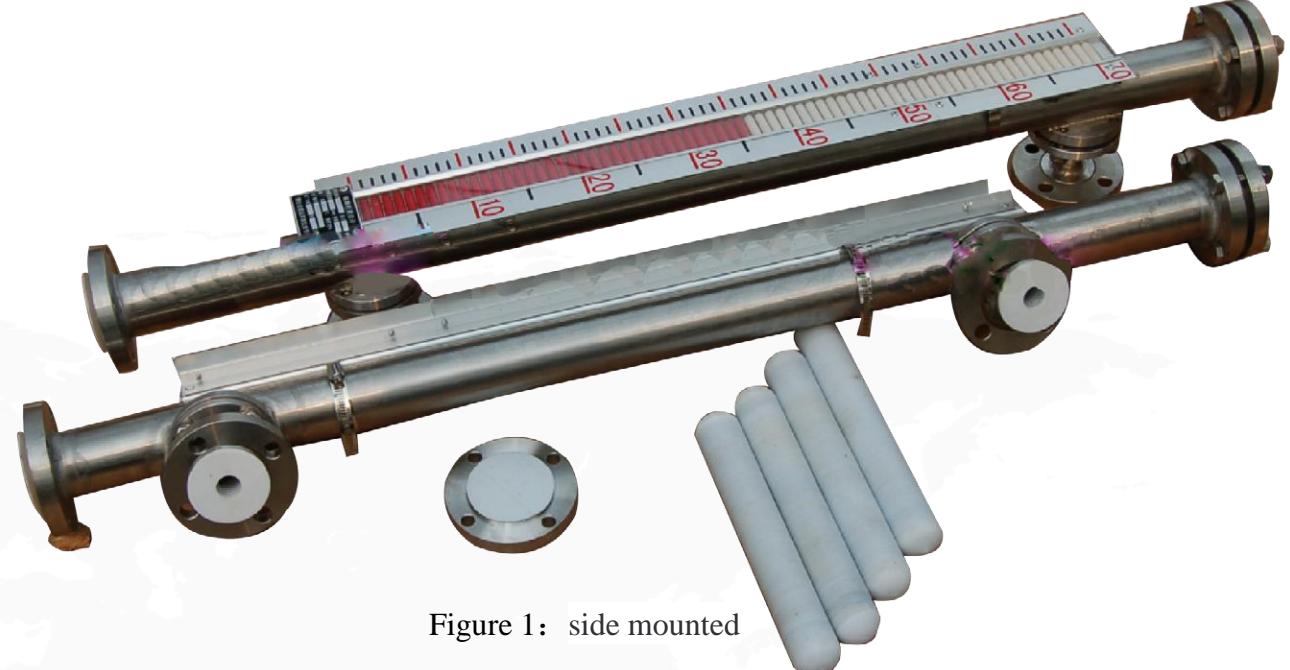

Figure 1: side mounted

Main technical parameters

- 【Brand】 Apure
- 【Measuring range】 200-2000mm
- 【Medium temperature】 ≤ 100°C
- (High temperature can be customized)
- 【Medium pressure】 ≤ 1.6mpa
- 【Accuracy】 ±5mm
- 【Medium density】 ≥ 0.42g/cm³
- 【Standard flange】 DN20/DN25
- 【Installation】 Side or top mounted
- 【Protection level】 IP65
- 【Measuring materials】 304, 316 stainless steel, PP
- 【Optional output】 remote transmission, liquid level switch, hart protocol

Product Selection

- Step 1: measuring range
 - Step 2: Material and installation method
 - Step 3: shape structure and pressure range
 - Step 4: Remote transmission and level switch
- When there is special need, the user is ordering special Instructions. Such as density, connection specifications

Throw-in type liquidometer

Straight wire throw-in type

Waterproof junction box type

High temperature collection cylinder

PTFE anti-corrosion type

Technical data

Measuring range :

0~1~100m Power supply:12~24VDC

Output signal: 4-20mA、0-5V、0-10V

Medium temp: -40~250°C

Protection level:IP68

Pressure overload: 200%FS

Mechanical vibration: 20g(20-5000HZ)

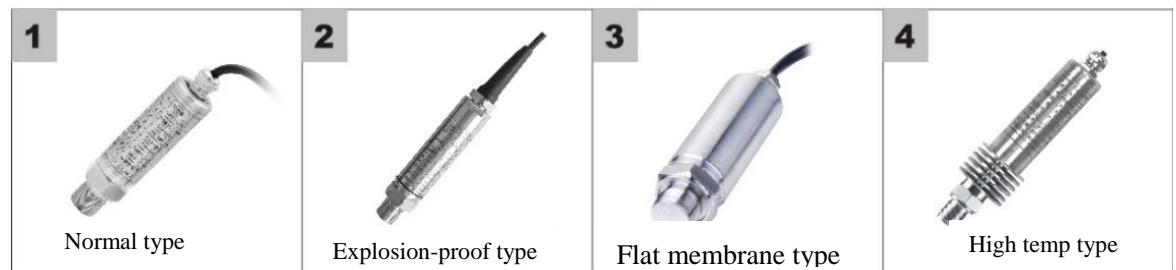

Comprehensive accuracy: 0.5level
(typical) 0.2level

Long-term stability: ±0.2%FS/ year

Material: junction box low copper aluminum alloy; liquid level probe all stainless steel; cable material polyethylene wire, stainless steel tube, PTFE anti-corrosion cable.

Media compatible: Various fluid media compatible with 316L stainless steel

PCM300 Series Compact Pressure Transmitter

PCM400 Series Industrial Hammer Pressure Transmitter

Integrated temperature sensor / transmitter

Overview

The integrated temperature transmitter with thermal resistance and thermocouple is a site-mounted temperature transmitter unit. It consists of a thermal resistance thermocouple and a temperature transmitter module. It is a two-wire system with a nonlinear correction circuit that directly measures liquid, gaseous media and various substances in the industrial process from -150 °C to 400 °C. Temperature signal is converted into a 4-20mA current output signal linear with the temperature signal. Display, adjusted recording instrument or computer for distributed control.

Widely used in petroleum machinery, chemical machinery, compressors, electric power, boilers, natural gas and other automated temperature measurement and control systems.

Performance parameter

Range: -150 °C ~ 400 °C

Output signal: 4 ~ 20mA

Supply voltage: 24VDC

Long-term stability: ≤ 0.2% FS / year

Response time: ≤ 20ms

Insertion depth: ≥ 10cm (special requirements can be customized)

Insert diameter: Φ7 (special requirements can be customized)

Nominal pressure: static external pressure on the protective tube at operating temperature

Explosion-proof grade: Exia II CT6 (can be customized)

Power consumption: < 0.5W

1: Ambient temperature: -40 °C ~ 80 °C

Working environment 2: relative humidity: 0 ~ 95% RH

3: Mechanical vibration: f < 55HZ, amplitude < 0.15mm

Intelligent control secondary display instrument

The digital display instrument cooperates with various types of analog output sensors and transmitters to measure, transform, display and control physical quantities such as temperature, pressure, flow, liquid level, composition and displacement.

Characteristics

◆ Compatible input 2 kinds of signals: thermal resistance, thermocouple, standard current, standard voltage, millivolt, remote pressure gauge resistance, etc. Sensor zero display value, sensor full point display value, decimal point position can be set freely;

◆ Multi-level digital filtering selection, effectively filtering out interference, effectively eliminating non-critical jump words, realizing alarm, controlling output, transmitting output 0 ~ 10 mA、4 ~ 20 mA、0 ~ 20 mA、0 ~ 5 V、1 ~ 5 V

Model

Content	Code	Description
	XM-601	Digital display
Dimensions	A	160*80*115, 80*160*115
	B	96*96*60
	C	96*48*60, 45*96*60
	D	72*72*60
	E	48*48*115
Panel form	H	Horizontal
	S	Vertical
	F	Square
Alarm	T	2'o'clock alarming
Transmitting Output	A0	No transmitting output
	A1	Current output (isolated from external supply)
	A2	Voltage output (isolated from external supply)
External transmitter power supply (external power supply input is not isolated, there is isolation requirement, please specify when ordering)	B0	No external power supply
	B1	External power supply 24VDC
	B2	External power supply 12VDC
Meter communication	S0	No communication
	S1	RS232 communication
	S2	RS485 communication
Meter power supply	VO	85VCA-265VAC
